

General Knox Klondike Derby

Moses Scout Reservation

Saturday January 20th

Come have a great TIME TRAVELing
through history in your TIME MACHINE

Leaders guide

Introduction

It is our pleasure to welcome you to the 2018 Klondike Derby. We hope that you and your Unit are looking forward to this event as much as we have enjoyed putting it together.

The theme for this year's Klondike derby is Time Travel. Using your time machine (sled) you will travel to different periods of time. In each time period you will have to complete a task that is related to that period of time. Remember to use teamwork and your scout spirit to guide you. We encourage your Unit and your patrols to decorate and dress the part for the day.

Sled Race – You will race through time while answering trivia questions related to the day's events.

Sled Judging – Sleds will be judged for equipment listed, design and theme based decorations.

Cooking Event - Score will be based on taste, presentation, creativity and adherence to Klondike theme.

And remember that appropriate *Scout Spirit* is courteous, kind, friendly and includes sportsmanship and positive team support.

Klondike Derby 2018 Planned Events

Sled Judging – Klondike Sled

Each troop should be equipped with a sled that fits the *Time Travel* theme (Time Machine) with the required list of materials provided in the leader's guide.

1. **Prehistoric** – Uggg Want Fire
Each patrol will work together to build a fire just like cavemen but will use flint and steel. The patrols can bring their own tinder and kindling but can also find it during their timed event. After the first fire is built, each patrol must move the fire to another designated pit to continue the blaze. (No metal or plastic may be used to move the fire) Once the team's fire reaches a certain height to burn an overhanging string, their time will be scored.
2. **Colonial** – Knox Needs Cannon
General Knox needs help gathering his supplies and moving them to the Colonial forces in Boston. Each patrol will build a travois with the provided poles and the rope that you bring with you to move General Knox's cannon.
3. **Wild West** – Transcontinental Railroad
Patrols work together to use their orienteering and surveying to quickly and accurately lay down railroad tracks for the transcontinental railroad.
4. **Vietnam** – Get to da Choppa
Patrols will use First Aid supplies that they bring to help treat, stabilize, and transport a fallen soldier across the battlefield to get to the chopper.
5. **1955** – Save the Clock Tower
Patrols will need to help Doc Brown by stringing a power line to capture the 1.21 gigawatts to power the flux compositor in your time machine to escape the 1950s. Patrols will work together to move across an obstacle course while tied together.
6. **Future** – Cron-illogical
Teams will need to work together to manipulate time to transport their quantum interphasic plasma bubble to the annular containment conduit.

Lunch – Cooking Event

Patrols will cook a meal named and connected to a certain time period that will be judged on taste, quality, and presentation.

Sled Race – Time Travel

Use your sled to travel back through all the time periods and not get stuck in time.

One Suggested Klondike Derby Sled

Approximate Dimensions: HEIGHT = 40 inches, LENGTH = 6 feet, WIDTH = 18 inches. Paint your sled bright colors -- varnish the bottom of the runners -- then wax before use! You can add a canvas snow curtain to keep equipment dry. Lace the sides with nylon rope to keep equipment from falling off the sled. Use screws instead of nails and pre-drill pilot holes to prevent splitting. Use glue in addition to screws. An old set of downhill skis or pvc pipe works well as runners. Make your sled strong, but light! Mount a pole on your sled to fly your patrol flag! Use hardwoods such as maple, oak or ash to make your sled. Pine is too soft!

Be Creative!!
