

## Refund Policy

In general, a trip fee is only refundable up to the time the fee is due. Where other dates apply, these will be included in the event posting.

For a trip that includes a per-person registration fee to an event or facility, it is possible that one or more participants will become unavailable to participate after paying and that one or more additional participants may sign up after that point. In such a case, the first new participant payment will be used to enable a refund to the first unavailable participant (if that is possible). This will progress to subsequent participants. The order of these two sets of participants will be determined by the times of their notifications to the Scoutmaster.

In no case will any trip refund be provided after the troop meeting prior to the trip (usually 3-4 days before the trip).
